

# STS Foliar Activator™

**STS FOLIAR ACTIVATOR™** is intended to supplement and enhance a full fertilization program as recommended in accordance with reliable Soil and Tissue Analysis. **STS FOLIAR ACTIVATOR™** provides a source of nutrients but will not, by itself, provide all necessary nutrients required during the growing season.

## Application Rates and Guidelines

**STS FOLIAR ACTIVATOR™** is water soluble.

Apply the recommended rate in 1-2 gallons of water per 1000ft<sup>2</sup> as a carrier. For best results, apply as a foliar spray early in the morning or evening. Allow foliar spray to dry before irrigation to maximize plant absorption.

### COOL AND WARM SEASON TURF:

Apply 3.0-6.0 oz per 1,000 ft<sup>2</sup> anytime foliar nutrients are being applied.

Product Compatibility: Due to various types of water quality and fertilizer sources available, it is important to always perform a compatibility test prior to implementing any new tank mix to identify potential issues and/or incompatibilities.
