# Six Mag™

SIX MAG™ is intended to supplement and enhance a full fertilization program as recommended in accordance with reliable Soil and Tissue Analysis.

## Application Rates and Guidelines

SIX MAG™ is water soluble.

Apply recommended rates in 1-3 gallons of water per 1000 ft² as a carrier.

*For best results* when utilizing as a foliar spray, apply early in the morning or evening. Allow foliar spray to dry before irrigation to maximize plant absorption.

**FOLIAR APPLICATION - COOL AND WARM SEASON TURF:**
Apply 0.75-1.5 oz. per 1000 ft² bi-weekly as needed.

**SOIL APPLICATION - COOL AND WARM SEASON TURF:**
Apply 1.0-2.0 oz. per 1000 ft² bi-weekly as needed.

**INJECTION / FERTIGATION:**
Apply 1.0-3.0 pts. per acre weekly or bi-weekly as needed.

Product Compatibility: Due to various types of water quality and fertilizer sources available, it is important to always perform a compatibility test prior to implementing any new tank mix to identify potential issues and/or incompatibilities.
