# Solu-Kelp

**SOLU-KELP**<sup>™</sup> is intended to supplement and enhance a full fertilization program as recommended in accordance with reliable Soil and Tissue Analysis.

## **Application Rates and Guidelines**

**SOLU-KELP**™ is water soluble.

Apply the recommended rate in 1-2 gallons of water per 1,000 ft<sup>2</sup> as a carrier. Apply as a foliar spray early in the morning or evening. Allow foliar spray to dry before irrigation to maximize plant absorption. Soil and/or water injection applications may be mixed with other soil applied nutrients.

#### **FOLIAR APPLICATION - COOL AND WARM SEASON TURF:**

Apply 3.0-4.0 oz. per 1,000 ft<sup>2</sup> weekly or bi-weekly as needed.

#### **SOIL APPLICATION - COOL AND WARM SEASON TURF:**

Apply 3.0-6.0 oz. per 1,000 ft<sup>2</sup> weekly or bi-weekly as needed.

### INJECTION / FERTIGATION:

Inject 2.0-3.0 gts. per acre as needed when irrigating.

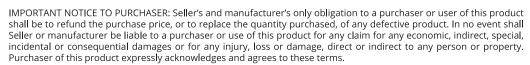

Information regarding the contents and levels of metals in this product available on the internet at: http://www.aapfco.org/metals.html

Product Compatibility: Due to various types of water quality and fertilizer sources available, it is important to always perform a compatibility test prior to implementing any new tank mix to identify potential issues and/or incompatibilities.
