

# Solu-Oxy™

**SOLU-OXY™** is intended to supplement and enhance a full fertilization program as recommended in accordance with reliable Soil and Tissue Analysis.

## Application Rates and Guidelines

**SOLU-OXY™** is water soluble.

Apply recommended rates in 2-5 gallons of water per 1000 ft² as a carrier.

**SOLU-OXY™ must be watered in immediately after application.**

Apply 0.15" to 0.25" of water to interface with the soil.

### **SOIL APPLICATION – COOL/WARM SEASON TURF MAINTENANCE:**

Apply 2.0-3.0 oz. per 1000 ft² every 2-4 weeks, Spring through Fall, reducing frequency in the winter to every 4 weeks. Apply when soil temperatures are above 45F.

### **POST AERIFICATION – ANAEROBIC CONDITIONS:**

Apply 3.0-6.0 oz. per 1000 ft² at 7-10 day intervals after aerification to promote turf respiration and availability of nutrients. When applying to black layer / anaerobic conditions, increase water carrier if possible and strive to apply enough water immediately after application to reach the infected area. Best results will be obtained when spiking treated anaerobic areas after application to ensure venting of gasses.

**IMPORTANT NOTICE TO PURCHASER:** Seller's and manufacturer's only obligation to a purchaser or user of this product shall be to refund the purchase price, or to replace the quantity purchased, of any defective product. In no event shall Seller or manufacturer be liable to a purchaser or use of this product for any claim for any economic, indirect, special, incidental or consequential damages or for any injury, loss or damage, direct or indirect to any person or property. Purchaser of this product expressly acknowledges and agrees to these terms.

**CAUTION: KEEP OUT OF REACH OF CHILDREN**

NET CONTENTS: 2.5 U.S. GALLONS (9.45 Liters)

NET WEIGHT 26.90 lbs (12.20 Kgs), Density: 10.76 lbs. (4.88 Kgs) @ 68° F

## 20-0-2 w/3% Calcium

### GUARANTEED ANALYSIS

Total Nitrogen (N)	20.0%
5.0% ammoniacal nitrogen	
7.5% nitrate nitrogen	
7.5% urea nitrogen	

Soluble Potash (K2O)	2.0%
Calcium (Ca)	3.0%

Derived from: Ammonium nitrate, urea, potassium nitrate, and calcium nitrate.

**SOIL APPLICATION ONLY.**

**Product Compatibility:** Due to various types of water quality and fertilizer sources available, it is important to always perform a compatibility test prior to implementing any new tank mix to identify potential issues and/or incompatibilities.

*This product should not be used with herbicides, fungicides or pesticides.*
