

Pure K+™

0-0-27 w/14% Calcium

Pure K+ 0-0-27 with 14% Calcium is 100% soluble and boasts three (3) sources of potassium and calcium. The primary potassium and calcium sources are reacted to “gas off” the oxides, resulting in K⁺ and Ca⁺⁺!

Pure K+ contains two more organic forms of proprietary K and Ca, which are readily available. The potassium is complexed, while the calcium sources are fully chelated, using plant available organic based carriers.

FEATURES AND BENEFITS

- Pure K+ 0-0-27 with 14% Calcium provides a readily available source of potassium to assist with photosynthesis, and activate enzymes to metabolize carbohydrates for the manufacture of amino acids and proteins.
- This product will assist in the movement of complex carbohydrates and sugars, increase stem rigidity, boost drought and wear tolerance, and improve stress resistance.
- Pure K+ contains three high quality calcium sources that are incorporated to optimize energy, signaling, cell development and integrity, promote root growth, and aids in carbohydrate translocation, and nitrogen absorption.

PRODUCT HIGHLIGHTS

- 15% Amino & other Organic Acids
- Completely Soluble Postassium & Calcium!
- No Oxides - 100% Available K⁺ & Ca⁺⁺
- Neutral pH of 7.0 - Melts Fast
- Vitamins, Minerals & Enzymes
- Functional Group of Carboxylates
- Complex Carbohydrates
- Plant Defense Elicitors
