

Cal-Mag 82TM with SOLU-PLUS

CAL-MAG 82TM is intended to supplement and enhance a full fertilization program as recommended in accordance with reliable Soil and Tissue Analysis.

Application Rates and Guidelines

CAL-MAG 82TM is 100% soluble.
Apply recommended rates in 1 - 3 gallons of water per 1000 ft² as a carrier.

For best results when utilizing as a foliar spray, apply early in the morning or evening. Allow foliar spray to dry before irrigation to maximize plant absorption.

 **FOLIAR APPLICATION - COOL SEASON TURF**
Apply 2.5-4.0 oz per 1000 ft² bi-weekly as needed.

 **FOLIAR APPLICATION - WARM SEASON TURF**
Apply 3.0-4.0 oz per 1000 ft² bi-weekly as needed.

 **SOIL APPLICATION**
Use 3.0-5.0 oz per 1,000 ft² bi-weekly or as needed.
Water in after application to interface with the soil and promote root uptake.

Product Compatibility: Due to various types of water quality and fertilizer sources available, it is important to always perform a compatibility test prior to implementing any new tank mix to identify potential issues and/or incompatibilities.
