

STS SummerTM with SOLU-PLUS

STS SUMMERTM is intended to supplement and enhance a full fertilization program as recommended in accordance with reliable Soil and Tissue Analysis.

Application Rates and Guidelines

STS SUMMERTM is 100% soluble.

Apply recommended rates in 1 - 2 gallons of water per 1000 ft² as a carrier. STS Summer can be added first to the spray tank mix to condition the water and reduce surface tension to improve application results.

STS SUMMERTM can be applied as a foliar, or lightly watered in after application. *For best results*, apply as a foliar spray early in the morning or evening. Allow foliar spray to dry before irrigation to maximize plant absorption.

 **FOLIAR APPLICATION - COOL SEASON TURF:**
Apply 3.0-6.0 oz. per 1000 ft² weekly or bi-weekly as needed.

 **FOLIAR APPLICATION - WARM SEASON TURF:**
Apply 4.0-8.0 oz. per 1000 ft² weekly or bi-weekly as needed.

 **SOIL APPLICATION - COOL AND WARM SEASON TURF:**
Apply 4.0-8.0 oz. per 1000 ft² and lightly water in after application to promote root uptake. Can be used as a base product with raw source or other fertilizer materials to optimize results. Ideal for applications made Tee to Green.

 **INJECTION / FERTIGATION:**
Inject 2.0 - 4.0 qts. every 7-10 days or as needed to maintain desired turf color, density and health.
