

Green+ER™

Green+ER is a custom formulated natural pigment-based additive for turf grass that uses the highest quality organic components and has been engineered to restore and replace natural color loss due to dormancy, stress, drought, wear, etc.

This product can be used any time of year.

FEATURES AND BENEFITS

Green+ER Vs. Overseeding:

- No Course Shutdown
- No Seed Prep - Greatly Reduces or Eliminates Seed Cost
- Reduced Water Use
- Reduced Fertilizer Cost
- Reduced Wear and Tear on Equipment
- Reduced Labor Cost
- Break Dormancy Earlier and Transition to a Healthy Dense Canopy!
- Organic base provides plant health benefits in addition to providing the best natural color.
- Can be used as a spray indicator to provide additional benefits.
- Great in high traffic areas that are susceptible to being off color.
- Increases canopy temperature in the winter and acts like sunscreen in the summer.
